### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Altmiller on 2/3/05.

The application has been amended as follows:

Claim 2, line 2" "-type" has been deleted.

Claim 7, line 2, "type" has been deleted.

### STATEMENT OF REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims 1-2, 4-5 and 21 are allowable over the closest prior art to Lambeth et al. (US 624846). Lambeth teaches a seedlayer formed from a AlNiTi material. The reference fails to teach or suggest the use of the claimed TiAl alloy layer having 35-65 at% of each of Al and Ti. The prior art fails to teach or suggest a motivation to modify Lambeth to achieve this particular composition.

Claims 6-7, 9-10, and 19-20 are allowable over the closest prior art to Ueno (US 6159625). Ueno teach a magnetic recording medium having a substrate, a NiAlZr layer, a Cr alloy underlayer and Co alloy magnetic layer (see Table 3 and Example 4). However, the reference fails to teach or suggest the specific amounts of the claimed elements. With respect to claims 19-20, the reference fails to teach or suggest a motivation to add an additional Cr underlayer or a CoCr intermediate layer in below the magnetic layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
